

OCTAFORM BIOGAS TANKS

**CONCRETE TANKS WITH A
BUILT-IN, PVC FINISH**

CORROSION-RESISTANT

**INSULATED TO
ANY R-VALUE**

WATERTIGHT

WORRY-FREE

**UNPROTECTED, CONCRETE IS
VULNERABLE TO CORROSION**

**REPAIRS ARE COSTLY AND
ULTIMATELY TEMPORARY**

OCTAFORM[®]
FINISHED CONCRETE FORMS

**OCTAFORM TANKS
ARE PROTECTED FROM
CORROSION, LEAKS &
EXPENSIVE DOWNTIME**

BUILD BETTER & SAVE

Octaform is the only option that forms and protects your concrete tank in one step. The finish and insulation is built-in, eliminating the need for liners, cladding or sealants.

Our patented forming system assembles quickly without specialized labor or heavy equipment. No cranes or steel forms are typically required. This fact alone often makes Octaform the most economical tank choice.

OCTAFORM BIOGAS TANKS

ANAEROBIC DIGESTION

Left alone, organic waste breaks down and releases methane into the atmosphere. Unharnessed, this biogas is a leading contributor to worldwide greenhouse gas emissions. Anaerobic digestion systems capture this gas and convert it to clean, renewable energy.

OCTAFORM HAS A BUILT-IN, WATERTIGHT PVC FINISH

CONVENTIONAL STEEL FORMWORK

REQUIRES FURTHER
TRADES TO COAT,
INSULATE AND
INSTALL LININGS
AND CLADDINGS

OCTAFORM[®] FINISHED CONCRETE FORMS

FORM AND PROTECTS TANK
IN ONE STEP, ELIMINATING
LININGS AND SEALANTS

BUILD SOMETHING BETTER

The conversion of waste to energy can be done in many ways but what they all have in common is a highly corrosive digestion process that will test the limits of any tank technology. Builders around the world know that Octaform's built-in PVC finish offers the best possible defence against this.

Corrosion-resistance, however, is just one reason to build with us. With Octaform, you can actually build faster and better while saving money.

OCTAFORM ELIMINATES THE EXPENSE OF HEAVY EQUIPMENT OR STEEL FORMS

CONVENTIONAL STEEL FORMWORK

REQUIRES HEAVY
EQUIPMENT AND
SPECIALIZED LABOR

OCTAFORM[®] FINISHED CONCRETE FORMS

ASSEMBLE QUICKLY AND
REQUIRE MINIMAL BRACING

WORRY-FREE TANKS

In an AD system, cracks and leaks are not just a nuisance; they are escaping profits. Because Octaform's built-in finish is watertight, you can stop worrying about corrosion, cracks and their subsequent repairs*. **DOWNTIME IS A THING OF THE PAST.**

BUILT TO LAST

Concrete is already one of the toughest and most long-lasting building materials on the planet - Octaform makes it better. Whether enduring the hot Florida sun or standing strong against tsunamis and earthquakes, **OCTAFORM MAKES TANKS THAT LAST.**

BUILD SOMETHING BETTER WITH OCTAFORM

CLASS A FIRE RATING
Classified in accordance with
ASTM E 84 or UL 723.

FOODSAFE
Octaform meets all CFIA and FDA
requirements for food safety.

CHEMICAL RESISTANCE
PVC is inert to most mineral acids,
bases, salts and paraffinic
hydrocarbon solutions.
